DETAILED ACTION

Response to Amendment

1. Applicant's Preliminary Amendment filed on 02/08/2001 has been entered. No claims have been amended. No claims have been cancelled. No claims have been added. Claims 1-6 are still pending in this application, wherein claims 1 and 5 being independent.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-6 are rejected under 35 U.S.C. 102(e) as being anticipated by Van Der Tuijn (US Pat No. 6,411,611).

Art Unit: 2642

Regarding claim 1, referring to claim 7, Van Der Tuijn teaches a single-chip direct conversion transceiver, comprising:

an RF circuit (see fig 7; and col. 9, In 14-col. 10, In 29);

a transmitter having a synthesizer (see fig 7; and col. 9, In 14-col. 10, In 29);

a receiver having a baseband filter and a demodulator (see fig 7; and col. 9, In 14-col. 10, In 29); and

wherein the synthesizer is coupled to the RE circuit, the baseband filter is coupled to the RF circuit, and the demodulator is coupled to the baseband filter (see fig 7; and col. 9, In 14-col. 10, In 29).

Regarding claim 2, referring to claim 7, Van Der Tuijn the transceiver of claim 1, further comprising a time-division duplex (TDD) circuit for ensuring isolating between the transmitter and the receiver (see fig 7; and col. 9, In 14-col. 10, In 29).

Regarding claim 3, referring to claim 7, Van Der Tuijn the transceiver of claim 1, wherein the transmitter and the receiver share the same RF port which interfaces with an external antenna (see fig 7; and col. 9, In 14-col. 10, In 29).

Regarding claim 4, referring to claim 7, Van Der Tuijn the transceiver of claim 1, wherein the synthesizer performs FSK modulation (see fig 7; and col. 9, In 14-col. 10, In 29).

Regarding claim 5, referring to claim 7, Van Der Tuijn a single-chip direct conversion receiver, comprising:

an RF circuit (see fig 7; and col. 9, In 14-col. 10, In 29);

Art Unit: 2642

a baseband filter and a demodulator (see fig 7; and col. 9, ln 14-col. 10, ln 29);
,
and

wherein the baseband filter is coupled to the RF circuit, and the demodulator is coupled to the baseband filter (see fig 7; and col. 9, In 14-col. 10, In 29).

Regarding claim 6, referring to claim 7, Van Der Tuijn receiver of claim 5, wherein the demodulator performs FSK modulation (see fig 7; and col. 9, ln 14-col. 10, ln 29).

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The following patents are cited to further show the state of the art in general:

U.S. Pat. No. 6,600,662

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bing Bui whose telephone number is (571) 272-7482. The examiner can normally be reached on Monday through Thursday from 7:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ahmad Matar, can be reached on (571) 272-7488. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306 and for formal communications intended for entry (please label the response
